The Officer Commanding No.4, Reserve Battalion, having noticed that the ground behind the Cactus hedge on the south side of the No.1 Diala camp and the east side of No.2, Diala camp, Hebbal, had been fouled by natives and was a breeding ground for flies, he made necessary arrangements for the cleaning of this ground, in anticipation of sanction, although it was out of bounds, as the matter required urgent attention.

2. The Residency forwarded a copy of the letter from the General Officer Commanding Bangalore Brigade on the subject, expressing a hope that the Durbar, in the circumstances explained, will take no objection to the action of the Military authorities.

3. The Deputy Commissioner, Bangalore, who was requested to inspect the place and take necessary action, explains in detail, in his report No.59 dated 23rd July, the arrangements made by him to maintain the grounds in a sanitary condition.

4. He reports that the area enclosed by the troops belongs to the Palace and lies within the limits of the Bangalore City Municipality. He also states that the Palace Superintendent has undertaken to get all the gaps in the hedges closed and clear the ground of all dirt and scrub.

5. I submit the papers for information. If the Huzur Secretary kindly takes action to keep the hedges and grounds referred to, in good order, the Residency will be so informed so that the need for any such action in future on the part of the Military authorities within the Palace grounds, may be averted.

SIR,

With reference to your letter No.G.692/Genl.97-18-2 dated the 13th instant in the matter of keeping the neighbourhood of the Diala Camp near Hebbal, Bangalore Taluk, in a sanitary condition, I have the honor to forward herewith for information copy of letter No.C.59/H.O.of 18-19 dated the 23rd instant from the Deputy Commissioner,Bangalore District, submitting a report on the action taken by him in the matter.

(70

Letter No.C.59/H.O.of 18-19 dated 23rd July 1918 from the Deputy Commissioner, Bangalore District, to the Revenue Commissioner in Mysore.

In pursuance of your No.C.227 of 1918-19 dated 15th instant I have the honor to report that I inspected the locality in question this morning in company with the Civil Officer and the Amildar Bangalore Taluk and to explain the situation as follows:-

1. The area enclosed by the troops named in the reference belongs to the Palace and lies within the limits of the City Municipality.

2. Opportunity for the commission of the nuisance complained about is amply afforded by the large number of gaps in the said hedges and the Military Camp followers etc., are as much to blame as people using the roads in the vicinity.

3. I called on the Commanding Officer and discussed the situation and the remedial measures thereto. It was agreed that the erection of 3 temporary latrines in convenient corners of the area and their daily conservancy would go a long way in abating the nuisance.

4. As the grounds formed a part of the Bangalore Palace, it was my idea to consult the Superintendent, Bangalore Palace, before addressing the President of the City Municipal Council in the matter of the proposed latrines. I could not catch him on my way back and sent my Civil Officer the next morning to interview him. This Officer has brought me word that it was impossible to permit the erection of the latrines on the Palace grounds.

5. The Palace Superintendent has undertaken to get all the gaps in the hedges closed and clear the ground of all dirt and scrub.

6. I am addressing the President of the City Municipal Council to kindly order the erection and daily conservancy of 2 latrines one in Munireddi Palya and the other near the Municipal Ockad.

7. I have also ordered the erection of 6 Notice Boards all along the hedges, prohibiting nuisance and notifying prosecution of offenders. The cost of this will have to be n met from State Funds. I shall submit the bill on its receipt from the Amildar Bangalore Taluk.

8. The Police Force at the Camp has also been ordered to be strengthened and the Inspector in charge instructed to warn all people committing nuisance in that locality and prosecute offenders.

9. With the above arrangements I hope the nuisance will abate to a great extent.

2. The Amildar, Bangalore Taluk, will be able to show the sites selected for this purpose.

3. By providing this conveneince, it is hoped that the nuisance the Military complain about, will to a great extent abate."

Letter No. 435 dated the 1st August 1918, from the Honorary President, City Municipal Council, Bangalore, to the Deputy Commissioner Bangalore District.

"With reference to your letter No. C.59/H.O. dated the 23rd July 1918 requesting me to issue immediate orders for the construction of two latrines for the prevention of fouling in the neighbourhood of the Diala Camps by "Natives", I have the honor to state that immediately on the receipt of the said letter the cactus fence alluded to (of the Palace Polo Ground) and the land in its proximity were thoroughly cleansed by the City Health Department.

2. I visited the area on the 30th ultimo in company with the Vice President, the Health Officer and the Amildar, Bangalore Taluk. The line of pollution is along the western and northern margins of th Palace Polo Ground opposite the Diala Camps No. 1 and No. 2. The Municipal Ookad where you propose to build a latrine is situated far away from here and beyond creating a nuisance near the Palace Compound wall and by the road side is not likely to serve any useful purpose towards remedying the evil complained of. There are public

latrine

(25

latrines at Munireddipalya and no addition at this place seems to b
necessary particularly as Diala Camp No. 2 is about ¼ furlongs from
Munireddipalya. The nature of refuse thrown about the cactus hedg
and the Palace Polo ground consisting of cartloads of egg-shells,
bones, toilet paper, stumps of cigerrettes &c. point to the source
of the nuisance. Large numbers of workmen are engaged in building
numerous structures in the camps and numerous followers and purveyo
are in evidence all over the place. What arrangements, if any,
have been made by the Military Department for their use, I am not
aware of. But it seems to me that some temporary latrines and
urinals for the use of workmen, purveyors &c. ought to be a matter
of necessity and should be put up if possible within the precincts
of the camps and conserved by the Military. I cannot see that
there is any Municipal land available for this purpose. The en-
tire area to the South of the Bellary road and east of Bangalore -
Chickballapur Road forms the Palace Polo Ground. To the West is
Diala Camp No. 1 and to the North Diala camp No. 2. The only
available spot seems to be at the North-western corners of the
junction of the Bellary and Chick-ballapur Roads, where a few trees
exist and would render it less obtrusive for a small public Latrine
to be built there. This would be beyond the limits of the Muni-
cipality and should have to be constructed and conserved at the
cost of the District Board.

3. I do not however believe this is likely to entirely do aw
away with the cause of complaint unless a strong Police Guard pat-
rols the area day and night."

Sir,

With reference to your office Memorandum No.4605 dated 1st July 1918 regarding the arrangements made by the Military Authorities for cleaning up the ground behind the ~~Cactus~~ Cactus hedge on the South side of the Nol Diala Camp and the East side of No.2 Diala Camp, Hebbal, I am directed to state that necessary instructions have been issued to the local authority concerned, to ~~k~~ keep in good order the hedges and grounds referred to, so that there may be no need for the Military Authorities to undertake such work in future.

2. In this connection the Durbar understand that large numbers of workmen are engaged inbuilding numerous structures in the camps and numerous followers and purveyors are in evidence all over the place - It is not clear what arrangements, if any, have been made by the Military Department for their use, but it seemsto the Durbar that some temporary latrines & urinals for the use of workmen, purveyors &c ought to be a matter of necessity and

3. It is also understood that the refuse thrown about the Cactushedge and Palace Polo ground consisted of cartloads of eggshells, bones, toilet paper, stumps of cigarettes &c. and this points to the source of the nuisance. The Durbar would suggest that suitable arrangements ~~should~~ might be made inthe camps for the storage and removal of ~~said~~ such refuse, so that such articles may not be thrown about in the adjoining areas.

SIR,

In continuation of my letter No.C.227/Gl.18-19 dated 26th July 1918 in the matter of keeping the neighbourhood of the Diala Camps near Hebbal, Bangalore Taluk, in a sanitary condition, I have the honor to forward herewith copies of the marginally noted letters

2. The place was inspected by me on the 16th instant and I agree with the Deputy Commissioner that the construction of the latrine as now proposed will tend to greatly abate the nuisance at this place.

2. From this it will be seen that he thinks that the latrines in the places suggested do not serve any useful purpose. With this letter I called on the Adjutant, Diala Camps and explained the situation to him. He has agreed to my proposal to have 2 latrines for public use erected on the margin of the Bangalore-Devanahalli Road, one behind Vyalisikhara Police Station and the other opposite the southern limit of the Diala Camp No.2. These will be conserved by the scavengers working in the camps and the sweepings destroyed in the incinerators in the camps. There are public latrines at Munireddipalya and no addition at this place seems to be necessary particularly as Diala Camp No.2 is aboyt 4 furlongs from Munireddipalya. The nature of refuse thrown about the cactus hedge and the Palace Polo Ground, consisting of cart loads of egg-shells, bones toilet paper, stumps of cigarettes etc., point to the source of the nuisance. Large numbers of workmen are engaged in building numerous structures in the camps and numerous followers and purveyors are in evidence all over the place What arrangements, if any, have been made by the Military Department for their use, I am not aware of. But it seems to me that some temporary latrines and urinals for the use of workmen, purveyors etc., ought to be a matter of necessity and should be put up if possible within the precincts of the camps and conserved by the Military. I cannot see that there is any Municipal land available for this purpose. The entire area to the south of the Bellary Road and East of the Bangalore-Chikballapur Road forms the Palace Polo Ground, To the west is Diala Camp No.1 and to the North Diala Camp No.2. The only available spot seems to be at the North-Western corner of the junction of the Bellary and

Chickballapur Roads where a few trees exist and would render it less obstrusive for a small public ~~lantern~~ latrine to be built there. This would be beyond the limits of the Municipality and should have to be constructed and conserved at the cost of the District Board.

3. I do not however believe this is likely to entirely do away with the cause of complaint, unless a strong Police or Military Guard patrol the area day and night.

Letter No.C.59/H.O. dated 20th August 1918 from the Deputy Commissioner, Bangalore District, to the Revenue Commissioner in Mysore, Bangalore.

In continuation of this office No.C.59/H.O. of 1918-19 dated 23rd July 1918 and in modification of my original proposal contained therein, I have the honor to enclose an estimate for the erection of a double latrine near the Vyalasikhara Police Station and request your early sanction to put the work on hand. This locality is in the immediate vicinity of Diara Camps Nos.1 and 2 where a number of persons gather for work. If no special latrine arrangements are made for them, they will be fouling the whole place and greater room will be given to the nuisance the Officer commanding of these camps ia complaining about.

2. The plan submitted provides for a double latrine one for the males and the other for females each enclosure being divided by smaller partitions to accommodate one individual at a time.

3. I am writing to the Superintendent of the Palace to close for the time being the path leading from the Bangalore-Devanahalli Road to the direction of the Cantonment Railway Station so as to stop all ingress into the Palace Grounds.

4. I trust with these measures the nuisance complained against will greatly abate.

Letter No.1531/60/Q., dated the 16th September 1918, from the General Officer Commanding, Bangalore Brigade, to the First Assistant to the Hon'ble the Resident in Mysore, Bangalore.

---:0:---

With reference to your letter No. 6118, dated 3rd instant, forwarding a copy of a letter No. 200, dated 22nd August 1918, from the Mysore Durbar regarding the clearing up of the ground behind the cactus hedge on the South side of No. 1 Diala Camp, Hebbal.

1. It is noted that in future the local Authority concerned will maintain the hedges and grounds in order, thus relieving the Military o this duty.

2. With regards to temporary latrines for the use of the workmen and purveyors etc., it is not considered necessary to erect these as th present existing ones have been allotted for their use and are deemed sufficient.

3. It is very difficult to enforce men of this class to conform with the sanitary rules and regulations and to use only the latrines, but the Military Police endeavour to do all in their power to assist in the matter.

4. The existence of refuse behind the cactus hedge and on the Polo Ground cannot be accounted for as all the dry refuse from the Camp is taken by the sweepers to the incinerator, built for the purpose of destroying it.

This incinerator is much nearer than the hedge referred to. Military Police are also stationed along the road to prevent any person entering the Mysore Grounds.

5. I have communicated with the Officer Commanding at Hebbal with regards to the points raised and have instructed him to take immediate steps to improve matters wherever possible.
